Production Drawing

Square Barrier Gate
Variable Length 11' - 16'

Long Hinge Bracket For Square Barrier Gate

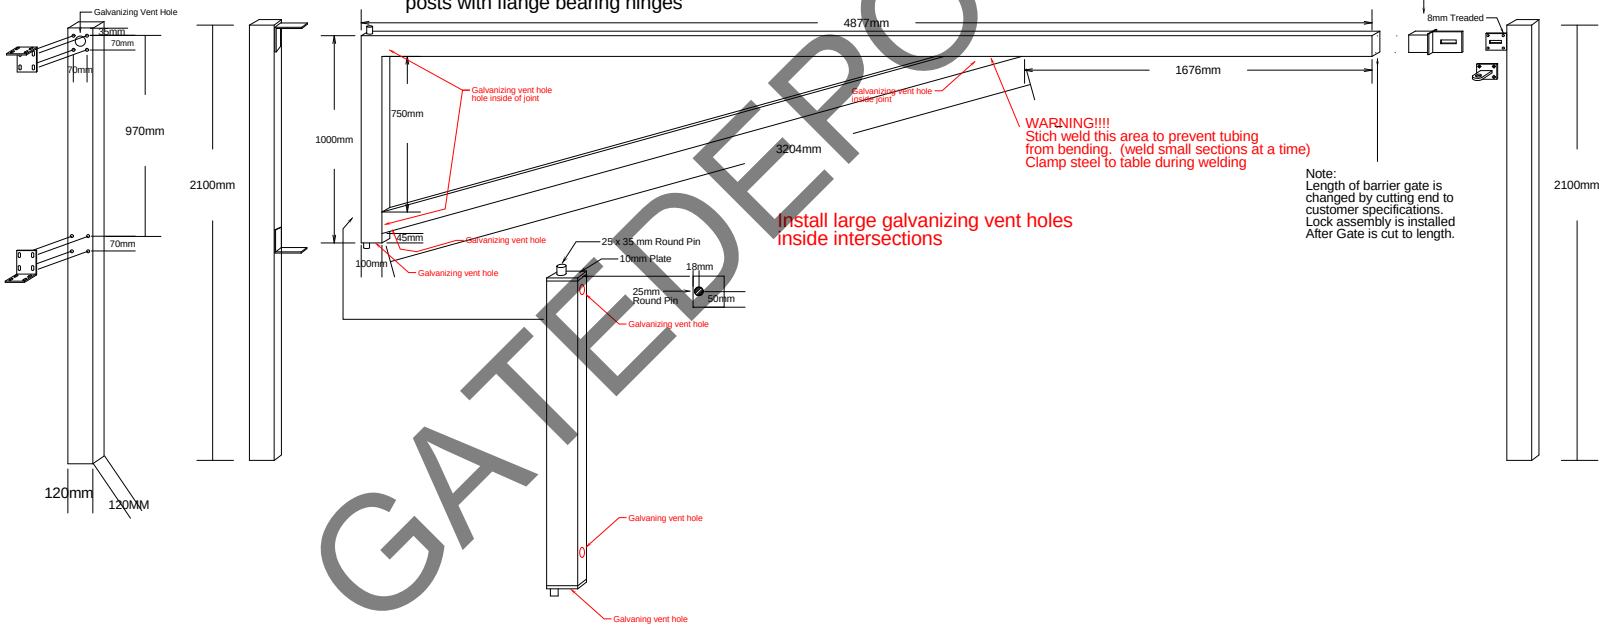

Lock Detail Square Gate

Both Gates Finished with Hot Dip Galvanized

Note: This gate uses standard posts with flange bearing hinges

100 x 100 x 4 mm Square Tubing

WARNING!!!!
Stich weld this area to prevent tubing from bending. (weld small sections at a time)
Clamp steel to table during welding

Install large galvanizing vent holes inside intersections

Note:
Length of barrier gate is changed by cutting end to customer specifications.
Lock assembly is installed After Gate is cut to length.
