DKProx card Scanner

DKProx Card Scanner can only read DKProx Cards using the DKProx Card Scanner software.

Installation

Connect one end of cable to the card reader and plug the USB connector into the USB port on your computer.

Place the card on the card scanner to read card code. LED will flash.

Download Software

Go to the DoorKing web site **Access Card Scanners and Software page** to download the DKProx Card Scanner Software (for PCs only).

The APP is **NOT** available for smartphones.
